IF YOU READ ONE NOVEL THIS ELECTION YEAR IT SHOULD BE *2076AD*

MATTHEWS, NC, February 20, 2020—Kenneth J Munkens' fifth novel, *2076AD*, presents a haunting view of socialist America on her 300th birthday. Through the eyes of a young man named George, experience how the average American citizen copes in a nation that no longer is the land of the free. George was content with his station in life until he made a discovery in a dusty attic. Curiosity led to investigation and ultimately to unexpected involvement with the new revolution. Unlike previous conflicts, this struggle is technology-driven that was decades in development. See how America lost its way allowing corrupt politicians to steal individual liberty, how history was changed to serve the ruling class, and what unique feature made George an ideal rebel. This intriguing story will keep readers involved in an American adventure filled with surprises, offering historical facts not taught in school, and providing a perspective that will change one's view of the role of government. Kenneth J Munkens once again draws readers in, introduces them to memorable characters, and leaves them wanting more. This is definitely an election year must read.

Empathy serves him well as he understands the wide range of emotions involved in human relationships. His humor will sneak up on you while your heart will be stung by a depth of emotion so rare these days.

Character development is an art perfected by this author. He creates real human beings that stay with you long after you finish reading. Readers often state that they feel as though they know the characters as well as they know friends and relatives. Many long for a sequel to continue to follow the lives of characters with whom they have become attached.

Born in the Bronx, congenital eye problems and loss of his mother at a young age shaped Munkens' character giving him the strength to face the real world head on with a non-yielding spirit. Married over forty years with two grown daughters, he values family, his enthusiasm is contagious, sense of humor notorious, and fascination with those strange creatures called human beings limitless.
